| • AWS | • Git | • UNIX |
| • Agile Methodologies | • SDLC | |

EDUCATION

Completed **Bachelor of Technology in Information Technology** with **81%** aggregate, from **VSB College of Engineering Technical Campus, Coimbatore** (2019-2023), affiliated to Anna University.

PROJECTS

Learning Management System - Internship Project at Cognizant.

- ✓ Developed a web-based platform to manage courses and users using ASP.NET MVC.
- ✓ Implemented role-based access and login system.
- ✓ Gained exposure to real-world software development lifecycle.

WORK EXPERIENCE

Cognizant|SoftwareEngineer|Sep2024-TillDate

As Software Engineer - .NET

- Trained in .NET Framework for developing scalable and maintainable web applications.
- Developed and enhanced ASP.NET MVC applications by adding new database fields, updating Razor View Controllers, Models, and performing SQL table alterations.
- Gaining exposure to AI-based project requirements, with a focus on integrating intelligent systems into enterprise solutions.
- Skilled in preparing and documenting test plans, writing test cases, and executing manual testing.
- Familiar with JIRA for defect tracking and agile project management.
- Experienced in SDLC, including requirement gathering, design, testing, and deployment.
- Hands-on experience in version control using GitHub.
- Created and managed sprint reports, test scenarios, and test data for efficient development cycles.
- Participated in cross-browser testing across Chrome, Firefox, and Internet Explorer.
- Interacted with Business Analysts and Developers to understand functional and technical requirements.
- Actively monitored LIVE projects, supported users, and assisted in resolving defects or production issues.
- Exploring AI technologies and machine learning concepts as part of role transition.

CERTIFICATIONS

Gen C-Dot Net Standard (Cognizant)

Successfully completed training covering .NET framework fundamentals, C#, ASP.NET, and real-time project practices.

Issued: April 5, 2024
